Spring Break Bath Special  
(lodging animals only, ask about prices)

Mini Spa Package added to any groom for only \$5.00, (includes pawdicure, teeth brushing, and deep conditioning treatment)

## DOGGIE DAYCARE

Doggie daycare provides a great outlet for all your dog’s energy. While you spend the day at work, your dog will have the day to play. At the end of each day, you both can go home and curl up on the couch together.

In addition, daycare provides important exercise and socialization that your dog might not otherwise receive. This can be valuable when dealing with behavioral problems or destructive behavior.

Our daycare program consists of supervised only playgroups. Playgroups are established based on size and energy levels. Our playgroup size never exceeds an 8:1 ratio, that gives our staff the ability to interact with each guests and pay special attention to playgroup activities.

## FACTS ABOUT FLEAS

The adult fleas you may see on your pet are only the tip of the infestation iceberg. Immature stages (eggs, larvae and pupae) may lurk in and around your home.

Immature fleas are hard to see, but may be found anywhere and infested pet has been.

Fleas can reproduce indoors year-round.

Fleas cause tapeworms in both dogs and cats.

The female flea lays about 50 eggs per day.

Fleas can jump 150 times their own length.

Fleas can bite 400 times a day. If your dog has 10 fleas that’s 4000 bites a day.

Gardner Animal Hospital recommends using a once a month topical solution such as Advantage Multi, or Frontline Plus. These products are a safe, fast acting, effective way to kill fleas.

## LOOKING AHEAD

Leadership Seminar – April 10, 2010

This 2 hour seminar will help you learn what your dog is trying to tell you and how you can become the pack leader. We will address a few simple problem issues such as bad house manners and what you can do to fix them. We will also cover the basics on how children can establish themselves as the pack leader.
